

Why riders choose STOMP

Built for the mountain

- Interchangeable magnetic lenses for changing light and weather.
- Photochromic, anti-fog, and anti-glare optics for clearer runs.
- Low-profile built-in speakers keep the design clean and comfortable.
- Integrated camera captures the line without a bulky add-on.

Made to last all day

Designed for first chair to last run, STOMP delivers lightweight comfort and extended battery life with up to 12 hours of use.

Perfect for

- Beginners who want confidence and convenience
- Weekend riders who want music, footage, and comfort
- Advanced riders who want streamlined tech on the hill

STOMP

AI-powered snowboarding goggles

Human ran. Mountain ready.

Premium optics, integrated audio, and built-in capture technology in one clean goggle system.

Ride smarter

STOMP Connect

Stay connected on every run

STOMP Connect extends the experience beyond the goggle with a simple companion system built for mountain days.

- Track sessions and revisit the day after the lifts stop spinning.
- Sync ride footage and key moments from the built-in camera.
- Designed to feel seamless, not distracting.

Quick specs

- Up to 12-hour battery performance
- Magnetic lens swap design
- Integrated camera module
- Built-in speakers

One system. Less clutter.

Instead of juggling separate accessories, STOMP brings key ride-day features into one streamlined pair of goggles.

Core features

- Clear optics for variable conditions
- Comfort-first fit for long sessions
- Low-profile speaker integration
- Built-in camera with centered placement

What makes it different

Optics

Photochromic lenses help adapt to changing light while anti-fog and anti-glare treatments keep the view cleaner.

Audio

Built-in speakers add convenience without turning the goggle into a bulky headset.

Capture

A compact integrated camera records the moment from the top-center position for a natural point of view.

Built for all levels

From first-time riders to experienced snowboarders, STOMP is designed to make tech feel useful, simple, and ready for the mountain.
